

PAUL PARTHIBAN J

React | Node.js | .NET | TypeScript | Full-Stack Developer

Tirunelveli, India

Phone: 6374178098 Email: paulparthiban85085@gmail.com GitHub: github.com/parthi25 LinkedIn: linkedin.com/in/paul-parthiban-j

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C#, Java, Python, PHP
Frontend: React 19, Tailwind CSS, Zustand, React Query, React Hook Form, ECharts
Backend: Node.js, Express.js, .NET 10 Web API, Spring Boot, RESTful APIs
Databases: SQL Server, MySQL, Entity Framework Core, Dapper, Sequelize ORM
Auth & Security: JWT, OAuth 2.0, RBAC, Device Fingerprinting
Tools & DevOps: Git, Linux (Ubuntu), Vite, Sentry, Swagger, WinSCP

Experience

Associate Software Developer	Jeyachandran Industries Pvt. Ltd	2025 – Present
- Developed full-stack enterprise applications using Node.js, Express.js, and React.js for supply chain management. - Built end-to-end P2P module with Sequelize ORM, RESTful APIs, and responsive UI using Tailwind CSS. - Integrated SAP APIs to synchronize data across internal and external enterprise systems. - Deployed and maintained applications on Linux-based server instances with production monitoring. - Delivered analytics dashboards with data visualization and Excel export handling 10K+ transactions daily.		
IT Support Engineer	Ramachandran Retail Pvt. Ltd	2024 – 2025
- Provided technical and production support for Microsoft Dynamics AX systems. - Managed Linux and Windows servers, system monitoring, and issue resolution.		

Projects

AdminCore – Enterprise Access Management Platform	React 19, .NET 10, SQL Server, SignalR
- Built full-stack RBAC platform with React 19 + TypeScript frontend and .NET 10 Web API backend with layered architecture. - Implemented JWT authentication with GitHub OAuth SSO, device fingerprinting, CAPTCHA, and secure session management. - Engineered granular permission system with menu-level and action-level controls using SQL Server stored procedures. - Integrated SignalR WebSocket for real-time dashboard updates and live session monitoring across connected clients. - Designed frontend state layer with Zustand + React Query for optimistic caching and server-state synchronization. - Built audit logging, document management, and ECharts analytics dashboards with CSV export.	
P2P – Supply Chain Management System	Node.js, Express, Sequelize, MySQL
- Architected end-to-end supply chain platform with procurement, logistics, and warehouse modules serving 100+ users. - Engineered purchase order workflows, GRN validation, and invoice automation reducing processing time by 40%. - Built real-time warehouse operations and supplier tracking improving inventory accuracy by 25%.	
Purchase Request Management System	PHP, MySQL, JavaScript
- Created role-based PR workflow with buyer head assignment and category access controls. - Built RESTful APIs and cross-database queries for SAP integration and vendor synchronization.	

Education

M.Sc. in Computer Science	St. John's College, Palayamkottai	2024
Manonmaniam Sundaranar University		GPA: 7.9
B.Sc. in Computer Science	Manonmaniam Sundaranar University College, Govindaperi	2022
Manonmaniam Sundaranar University		GPA: 7.5

Certifications

- Full-Stack Development Internship — AK Infopark
- NPTEL — Python for Data Science and Programming in Java
