Experience

Jeyachandran Industries Pvt. Ltd	Associate Software Developer	2025-present
- Enhanced backend services using Node.js and Express.js for enterprise applications. - Executed business logic and RESTful APIs using Node.js and Express.js. - Built a P2P module using Sequelize ORM and managed MySQL/SQL database operations. - Integrated SAP APIs to synchronize data across internal and external systems. - Deployed and maintained applications on Linux-based AWS EC2 instances. - Handled server configuration, file management using WinSCP, and production troubleshooting.		
Ramachandran Retail Pvt. Ltd	IT Support Engineer	2024-2025
- Provided technical and production support for Microsoft Dynamics AX systems. - Managed Linux and Windows servers, system monitoring, and issue resolution. - Ensured high availability and smooth operation of business-critical applications.		

Projects

P2P - Supply Chain Management System Node.js, Express, Sequelize, MySQL

- Architected end-to-end supply chain platform with procurement, logistics, and warehouse modules serving 100+ users.
- Engineered purchase order workflows, SIR/SOR processing, GRN validation, and invoice automation reducing processing time by 40%.
- Built supplier tracking systems, transport stock monitoring, and real-time warehouse operations improving inventory accuracy by 25%.
- Enhanced analytics dashboards with data visualization and Excel export functionality handling 10K+ transactions daily.
- Applied internationalization (i18n) and responsive UI using Tailwind CSS framework supporting 3 languages.

Purchase Request Management System PHP, MySQL, JavaScript

- Created role-based PR workflow with buyer head assignment and category access controls.
- Designed bundle tracking system with capacity monitoring and automated limit enforcement.
- Expanded cross-database queries for SAP integration and vendor data synchronization.
- Built RESTful APIs for category search, bundle validation, and user authentication.
- Enforced dynamic frontend forms with validation, dropdowns, and responsive components.

Gesture-Controlled Video Player Python, OpenCV, MediaPipe

- Developed a hands-free media control system using real-time computer vision techniques.
- Implemented gesture-based controls for play, pause, and seek functionality.

Education

Master of Science St. Johns College	2024
GPA: 7.9	
Bachelor of Science Manonmaniam Sundaranar University College	2022
GPA: 7.5	

Technical Skills

Languages: Java, JavaScript (ES6+), Python, C, PHP
Backend: Node.js, Express.js, Spring Boot, RESTful APIs, JWT Authentication
Frontend: React.js, HTML, CSS, JavaScript DOM
Databases: MySQL, SQL, Sequelize ORM
Cloud & OS: AWS EC2, Linux (Ubuntu), Git, WinSCP
Other: SAP API Integration, System Troubleshooting

Certifications

- Full-Stack Development Internship AK Infopark
- NPTEL Python for Data Science and Programming in Java
